

FCC: I'M SICK OF IT! The airwaves are filled with so many smear ads for candidates as it is, and I PROTEST STRONGLY about Sinclair Broadcasting's decision to force their stations to air WHAT IS CLEARLY an anti-Kerry documentary days before the election. It is the FCC's responsibility to monitor such blatant programming as this, which is slinking in under the guise of "documentary". The FCC knows better, and so do we. r uses the public airwaves free of charge, and is obligated by law to serve the public interest. But when large companies control the airwaves, we get more of what's good for the bottom line and less of what we need for our democracy. Instead of something produced at "News Central" far away, it's more important that we see real people from our own communities and more substantive news about issues that matter.

Sinclair's actions show why we need to strengthen media ownership rules, and have some accountability for a change.
Please do not permit this kind of cynical use of our public broadcast systems!
